

IPE LEARNING OPPORTUNITY

Interprofessional Education (IPE)

Don't miss out on this IPE learning opportunity for pharmacy students and respiratory therapy students to work through a patient case scenario together in the simulation lab. The event is approved as a co-curricular event for pharmacy students and as community service hours for respiratory therapy students. There will be a brief pre-reading assignment to ensure you are prepared.

Space is very limited (16 students per offering) so there will be two offerings; September 17 OR November 16 from 12:00pm-1:00pm in Room 315. The event will be limited to 2nd & 3rd year pharmacy students and 2nd year respiratory therapy students. RSVP prior to September 7 via the google form at:
